9. You will find that Moodle is quite intuitive: that said, for a more detailed look at the platform, please find the complete user guide here: https://docs.moodle.org/39/en/User_quick_guide;
10. App.

You can download and install the official Moodle App (the one with the Orange lowercase m wearing a mortarboard) from the app store available on your device. To utilize the app:

  a. Select the student profile;
  b. Type the URL: https://e-learning.unisg.it/;
  c. Choose connect to your site;

Readings will generally be made available in advance of the relevant course, while some material may be provided in class or following the lessons. Course material will either be sent to you via email or made available directly through Moodle. (In order to reduce waste of printed materials, we strongly urge you to keep as much of your reading in electronic format only.) Certain readings are made available in the library; the catalog is available through the UNISG website (Student Services > Library > LibriInLinea).

Professors are encouraged to contact students prior to their scheduled classes, and may provide direction or advance material that is not included in the syllabi. In such an event, follow the professors' instructions carefully, as they may supersede those indicated on the course syllabi.

We will ask you to complete online course evaluations on a regular basis, as well as provide comments on different aspects of academic activities. Regular meetings with the academic staff will also be scheduled, in order to ensure continuity. You are nevertheless welcome to raise issues at any time, by contacting the Academic Office (didattica@unisg.it) about academic activities, or the Tutor Office (tutor@unisg.it) regarding study trips and administrative issues.

- **QuickPresences**

In order to record students' presence we use a software called QuickPresences
https://wedo.unisg.it/Presences.Public/RilevaPresenza
You can also use the link present on the MyUNISG app, logging in with the same credentials you use for the online personal portal.
At the beginning of each class, the lecturer will communicate a PIN code. You will have to enter this pin on your myUNISG app to record your presence. This is extremely important for security reasons because the university needs to know exactly who is present in class in each day.
If you are not physically present in class and you are following the lecture from home, you do not have to enter the pin.

- **Turnitin**

Turnitin is a software used by UNISG that provides instructors with the tools to prevent plagiarism, engage students in the writing process, and provide personalized feedback. Please note that the student has to upload the final version of his/her thesis on the Turnitin platform in order to avoid plagiarism.

PLAGIARISM: POLICY AND PENALTIES: To plagiarize means to pass off someone else's work (written text and/or ideas) as your own. It is the most serious academic offence and UNISG does not tolerate it under any circumstances. Copying verbatim (word for word) any text, in print, online, or from any other medium, is plagiarism. Any citations from any part of another person's text must be in quotation marks and acknowledged with a bibliographic reference in the footnotes or references of your work. The use of someone else's ideas from any work (book, article, etc.) must be rephrased in your own words as well as cited with a bibliographic citation in your footnotes or references.

Any infringement of these rules will result in the failure of an exam or paper, with no opportunity to redo the evaluation, which means that the student will not be able to complete the program and receive her or his degree. All UNISG instructors are requested to report any case of plagiarism they may detect. This applies to any exam, study trip reports, and the final thesis. Please keep this in mind, and avoid plagiarism under all circumstances.
