ART. 3 – HOW THE RANKING LIST IS COMPILED

The coordinator of the relevant area for the activities covered by the collaboration, supported by the university's technical and administrative staff, will prepare a ranking of students entitled to the assignment of a university service collaboration.

The ranking will be drawn up based on the applications received, with each applicant assigned a score calculated by adding together:

optional courses, study trip activities (Undergraduate Degree) and field project activities (Postgraduate Degree) will not be included in the calculation.

- the points assigned for honors as per the table in Attachment 1.

- the points assigned following an interview to evaluate aptitude for the activity, following convocation via e-mail.

In the case of equal overall scores, the applicant with the lower income band will be awarded the assignment, then the applicant with the best average grade score and, in the case of continued equality, the student with the youngest age.

 The ranking list will be published on the university website (www.unisg.it) by **June 21, 2024**.

ART. 4 – DURATION AND SIGNING OF THE COMMITMENT AGREEMENT

The successful applicant must sign a specific commitment agreement no more than seven days after the publication of the ranking list. The agreement must be signed in duplicate, with one copy for the university and one for the student. It will specify, among other things:

- the activities covered by the collaboration
- operational methods for carrying out the collaboration, schedule and overall duration

- compensation and payment method
- coordinator of the service or structure

If the successful applicant withdraws or does not sign the commitment agreement before the specified date, the collaboration position will be offered to the next student in the ranking list.

The collaboration does not bring with it any university credits nor does it contribute to the graduation score.

ART. 5 – COMMITMENT AND COMPENSATION

The collaboration will take place in the UNISG teaching garden, from June 24, 2024 to October 31, 2024. The commitment required of every student will be 3.5 hours every day for five days a week, for a maximum total of 200 hours. The compensation for every hour of work is €8.00 (eight euros) and the payment is exempt from taxes in accordance with Art. 11 of D. Lgs. 68/2012.

In the event of a suspension of the collaboration, whatever the cause, and if recuperation in a subsequent period has not been authorized by the awarding body, no compensation will be due for the collaboration that has not been carried out. Payment of the compensation will be made by crediting the beneficiary's bank account within 60 days of submitting the certification of the collaboration carried out, signed by the coordinator of the structure, who will certify the collaboration within 10 working days of its completion.

ART. 6 – TERMINATION OF THE AGREEMENT

As set out in Art. 12 of the “Regulations for the assignment of part-time collaborations to students,” the collaboration ends, without the need for any communication, on the expiration date indicated in the

- if the student incurs a disciplinary sanction more severe than a warning, in accordance with Art. 9 of the Student Regulations.
- in case of failure to comply with the duties set out in the collaboration agreement or dissemination of data in violation of privacy regulations.

The student may request to be released from continuing the collaboration, resulting in its early termination to all effects and purposes, due to an unexpected impediment or other justified reason.

ART. 7 – ACCIDENT INSURANCE

The university will provide accident insurance for the individuals who have been assigned the collaboration. The assignment, however, does not entail any obligation for pension insurance.
